

*Initial
Issue*

Add a `-skip-checks` option

*Model
Response*

Let me break this down
step by step:
Step 1: Analyze...
Step 2: Design...

[18 more planning
steps]

*I believe this
comprehensive approach
will ensure robust
implementation.*
`<function=finish>`

(a) Analysis Paralysis

Register `VariableDocumenter`
with Sphinx

Let's analyze this step
by step:

First, I'll insert...
`<function=str_replace
editor>`

Now, **simultaneously**
let's:

1. Confirm the changes
2. Run the reproduction
script

`<function=execute bash>`
`<function=execute bash>`

(b) Rogue Actions
