

## Instruction Relevance with LLMs

## Combined

## Skill Affordances with Value Functions

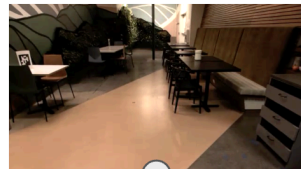

How would you put  
an apple on the  
table?

*I would: 1. \_\_\_\_\_*

LLM

|     |                      |     |
|-----|----------------------|-----|
| -6  | <b>Find an apple</b> | 0.6 |
| -30 | Find a coke          | 0.6 |
| -30 | Find a sponge        | 0.6 |
| -4  | Pick up the apple    | 0.2 |
| -30 | Pick up the coke     | 0.2 |
| ... | ...                  | ... |
| -5  | Place the apple      | 0.1 |
| -30 | Place the coke       | 0.1 |
| -10 | Go to the table      | 0.8 |
| -20 | Go to the counter    | 0.8 |

Value  
Functions

*I would: 1. **Find an apple**, 2. \_\_\_\_\_*
