

A Venn diagram consisting of two overlapping circles. The left circle is blue and labeled 'Memory'. The right circle is red and labeled 'Skill'. The intersection of the two circles is labeled 'induced skill'. The diagram illustrates that 'induced skill' is a concept that belongs to both 'Memory' and 'Skill'.

Memory

saved from the agent's
own interaction

e.g., a previous product
purchased

Skill

reusable knowledge
about how to act. Code,
text, or both.

e.g., a release checklist a
person wrote

induced skill

e.g., a skill the agent
induced from its own
successful searches
