

TURN

WHAT ENTERS THE CONTEXT

1 System Prompt

the index of skills: names and descriptions only
≈3k tokens in Hermes

2 `skill_view('python-review')`

the `SKILL.md` body, as a **tool result**: the review steps, as text
once; invoke_skill in Assignment 1

3 **TERMINAL** `python scripts/run_checks.py`
`src/`

the script's **output**: Black and Ruff findings
the code itself never enters

4 `skill_view('python-review',`
`'references/docstring-style.md')`

the docstring rules
only when the model calls for them
